

Grace

Crosses

Lay with me
Put your hand in mine
Watch me bring
Our dreams alive
Draped in the waves

As we fall into his grace
Dying to escape

Dive with me
Throw your arms around
Put faith in me
Bathed in your cloud
In harmony

As we fall into his grace
Dying to escape
We fall into his grace
Dying to escape

He has come to save us all
He has come to take us from this place
He has come to save us all
He has come to save us all

As we fall into his grace
Dying to escape
We fall into his grace
Dying to escape

He has come to save us all
He has come to take us from this place
