

## Light As A Feather

Crosses

Say something  
Full of desire I'm aching  
I choose your hand  
To pull from the mire I've sank in

Through our bodies we exchange what is sacred  
With our bodies we create a new realm

(Reach into my head)  
Take me higher  
Pulling me closer before I sink  
(Straight into my head)  
Take me high and  
Don't let me go before I sink  
(Deep into my head)

Say something  
Draped in desire show me  
The view through your lens  
Exposing the wires in my head

With our bodies we exchange a vibration  
Through our bodies we escape to new realms

(Reach into my head)  
Take me higher  
Pulling me closer before I sink  
(Straight into my head)  
Take me high and  
Don't let me go before I sink  
(Deep into my head)  
(Deep into my head)  
(Deep into my-)  
(Deep into my head)  
(Deep into my-)

Say something drenched in desire  
Exposing the place in your head  
Where nobody goes

(Reach into my head)  
Take me higher  
Pulling me closer before I sink  
(Straight into my head)  
Take me high and  
Don't let me go before I sink  
(Deep into my head)
