

Catastrophe

Crossfaith

Something has awakened
From deep inside of me

Can't you see it? (What you've created)
Inside our soul (It's born, it grows)
My hate is a weed stuck deep in the dirt
You couldn't burn
Take me out from the inside
To make me everlasting
Pull you into the genocide
'Til it's done

Burn me alive
I will always revive
To take what's mine
Call it sin or crime
Something's awakened in myself
From deep inside of me

You can't stop it (What you've created)
Can't hold me down (I'm activated)
My feet are machines that keep me on track
Attack, I'll never turn
Turn me out from the inside
Give me what I'm asking
Show me how to be a sacrifice
Die to rise

Dragging the chains, pulling restraints
My body pains, determination remains
As you push me to the flames
I don't deny the claims and lies
When they call for my demise
Incinerate me, I wanna see you try
I wanna see you try

Take me to the grave
I ain't afraid, I never stay down
Keeping the faith, taking my own way now
Breaking the chains, I never stay down

But me alive but you will recognize
The same hate lies in another's eyes
Burn me alive but you only hurt yourself
Burn me alive
I will always revive
To take what's mine
Call it sin or crime
Something's awakened in myself
From deep inside of me
