

# Demise And Kiss

Crossfaith

I dig inside of your mind  
I bring your soul  
Drown in the sea  
Feeling like having fear of you  
I take you out from you  
Enter your side  
Your empty heart  
You stand, hold it and walk alone

You and I both have seen the same old view  
Although I doubt things in sight  
Close your eyes tonight  
There's one more sign  
Please show us the way  
Endless pain can't refuse to see

Away from me  
You can't share me  
Feeling close your eyes  
Don't look at me inside of all  
Come close to me  
Come close to say to you  
I wake you up slowly now  
Demise is counting down

Breathe, I can't breathe  
My lungs are freezing now  
You're always close to touch of dying  
Breathe, I can't breathe cause my lungs freeze  
Fall to the ground  
I'm always close to you to call

Demise and kiss  
I found the way to you  
I dig inside of your mind  
Liberate your soul  
Struggle in the sea  
Feeling like having fear of you

To the end  
It's up to you  
Decide  
I will keep your hands and hold your soul

Two as one  
I finally see what you've become to me  
With open arms I'll wait for you  
Two as one just come with me

Time never stops  
It's up to us  
Decide  
Time never stops  
You must be facing the truth  
Now I feel like I'm stuck in your sight  
We will not be separated  
Now I feel like I am stuck in your sight
