

# Kill 'Em All

Crossfaith

Yeah kill it!

Now we're comin' in hot  
Nobody can stop us tonight  
Don't need another imitation  
Get out of my way  
I'll never let you pass me  
You're a fake and I'm in the fast lane  
Left you all out of time for thinking  
Get out of my head

Break it, break it and break it tonight (Hey!)  
Break it, break it and break it tonight (Hey!)  
Break it, break it and break it tonight (Hey!)  
Break it, break it tonight

Break it, break it and break it tonight  
Never gonna see them again  
Attack, attack, attacking tonight  
I see you hiding  
Break it, break it and break it tonight  
I'll show you what we got  
When worlds collide we stand up and scream  
Kill them all!

Yeah we're comin' in fast  
Nobody can stop us tonight  
Keep up or find yourself in the dust  
Get out of my way  
Consume the liquid fire  
Close your eyes and feel the raw energy  
You can't stand here in front of me  
Get out of my head

Break it, break it and break it tonight (Hey!)  
Break it, break it and break it tonight (Hey!)  
Break it, break it and break it tonight (Hey!)  
Break it, break it tonight

Break it, break it and break it tonight  
Never gonna see them again  
Attack, attack, attacking tonight  
I see you hiding  
Break it, break it and break it tonight  
I'll show you what we got  
When worlds collide we stand up and scream  
Kill them all!

Kill them all!  
Kill them all!  
Kill them!

Break it, break it and break it tonight  
Break it, break it and break it tonight  
Break it, break it and break it tonight  
Break it, break it tonight

Break it, break it and break it tonight  
Never gonna see them again  
Attack, attack, attacking tonight  
I see you hiding  
Break it, break it and break it tonight  
I'll show you what we got  
When worlds collide in front of me  
Attack, attack, attacking tonight  
When worlds collide we stand up and scream  
Kill them all!  
Yeah!  
Kill them all!
