

Make A Move

Crossfaith

Make a move, make a move
Ready, set, make a move

Everybody catching up to get me
Grab for what they think they get free
Promise anything they can't keep
Judging everyone for money
Yeah right?
Don't feel it in my core
I can't give more than I had before
It's over, you best believe
I'm so sick whenever you speak

Make a move, make a move
Ready, set, make a move

My guns are loaded
I bet you know it
No fucking slogan
Just action now
Your friends are bloated
Their backbone broken
But we've exploded now
Action now
Our guns are loaded
Ain't gonna keep my mouth shut
Our guns are loaded

I don't care at all what you think
Just keep talking shit to your shrink
Just keep talking shit you lip sync
Like your own thoughts are not extinct
So let's evolve to the higher stages
Genetic changes, become contagious
Infecting nations, a generation
Is ready and waiting for action

Everybody catching up to get me
Grab for what they think they get free
Everybody catching up to get me
Gotta shift up for maximum speed
(Ready, set, go)
Run!

My guns are loaded
I bet you know it
No fucking slogan
Just action now
Your friends are bloated
Their backbone broken
But we've exploded now
Action now
Our guns are loaded
Ain't gonna keep my mouth shut
Our guns are loaded
