

I lost my place in lives Even in this morning, i see the sun goes down Whatever you say "I leave the dream here right now".

You know (i'm gone) won't stop (stay here) Tell me what do you want you want me to be My skin (you touch) this way (i seek) I'm hiding away, hidind away from you.

Now break away. your weapons of hate will crush all the hearts that you've won. Right away, there was nothing to change, nothing can Change what you've done. I break away with the past. Why won't you say it? Now i won't let you down Destroy these weapons of hate.

I hear the voice through my body and soul We may have been running the fucking circle I break it all All you point a gun at my head We stand against the door.

Break away, injecting the void It's running and running and running my head Brace yourself, brace yourself, i'm hiding away, hiding away from YOU!!! We cut the code come together.

Now break away. your weapons of hate will crush all the hearts that you've won. Right away, there was nothing to change, nothing can Change what you've done. I break away with the past. Why won't you say it? Now i won't let you down Destroy these weapons of hate.

Now the bullet has entered you gun I want you to point a gun on mu head You have to pull the trigger Just shoot and don't slip away.

Now break away. your weapons of hate will crush all the hearts that you've won. Right away, there was nothing to change, nothing can Change what you've done.

I BREAK AWAY! I BREAK AWAY! I BREAK AWAY!
