## Crossfaith

Why are you waiting for the light to turn on  
I just only need more speed in Redzone

Why are you waiting for the light to turn on  
I just only need more speed in Redzone

No  
I'll never fall until I find the place for ending  
Just let me go hyper sonic nightmare  
I'll never fall they gonna desecrate it

I'll find you out and follow your steps  
Take them down and leave them down  
I'm gonna try to find you now  
I'm gonna scream for where you are

Cause you are lost inside my head  
I can feel you in my pain  
It will never fade away

I just wanna keep it going on  
I just want you to come here close  
Even if I fall I will fly up so high  
I just wanna keep it going on  
Going on  
Aim my target on

I'll find you out  
And follow your steps  
Take them down and  
Leave them down  
I'm gonna try to find you now  
I'm gonna scream for where you are

I just wanna keep it going on  
I just want you to come here close  
Even if I fall I will fly up so high  
I just wanna keep it going on  
Going on

Redzone  
Can you feel the heat  
Redzone  
I won't stop right now  
Redzone  
I just need more speed  
Redzone  
I am over the  
Redzone

I'm gonna lead the power of resonant

Redzone  
Can you feel the heat  
Redzone  
I won't stop right now  
Redzone

I just need more speed  
Redzone  
I am over the Redzone

Cause you are lost inside my head  
I can feel you in my pain  
It will never fade away

I just wanna keep it going on  
I just want you to come here close

I just wanna keep it going on  
I just want you to come here close  
Even if I fall I will fly up so high  
I just wanna keep it going on  
Going on
