

# Rx Overdrive

Crossfaith

Blood in my veins is running faster  
Will it take me high again ?  
My Eyes are tracking harder  
Will my sanity remain ?  
Pull me out of myself  
No other way  
Primal fears in my head  
No turning back today

I can see what you can't see  
I can be what you can't be  
This is injection Overdrive

It's triking back (back !)  
Blood in my veins (veins !)  
I feel it taking me taking me through the haze (through the haze !)  
And this will carry me, carry me through the pain (through the pain !)  
)  
It's striking back !

I cannot stop the shaking till I black out  
I taste adrenalise and ride it out  
Pull me out of myself  
What do I see ?  
The prisoner in my head is staring back at me

I can see what you can't see  
I can be what you can't be

Give me a lifetime fix, I won't go back

I feel it taking me through the haze (Haze ! Haze ! Haze !)
