The Perfect Nightmare

Crossfaith

Born to save and born for weakness
Boil your blood, to beat the sickness
It's the day of resurrection
Time has come

Faking like you're awake in
Whatever state of sedation, I bring a mutation
You don't want to close your eyes
Before it's real

I am the perfect nightmare
Watch and believe

I'm the perfect nightmare
Rising out of nowhere
God you made me perfect
Save yourself, just beg for more

Pray for your God
Set you free
Pray for your God
In the grave
Pray for your God
For forever
Pray for me

How do you love yourself in the goddamn nightmare
Trust yourself when you're going insane
Burned the bridges you ain't getting back there
So I'll save your soul

Darkness open wide for me
Nothing else fills the hole
Overflow, running down the walls

I'm the perfect nightmare
Rising out of nowhere
God you made me perfect
Save yourself, just beg for more

Pray for your God
Set you free
Pray for your God
In the grave
Pray for your God
For forever
Pray for me

Born to save and born for weakness
Boil your blood
Born to save and born for weakness
Boil your blood, to beat the sickness

I am the perfect one
I am the perfect nightmare
I am the perfect one
Now I'm stronger than your God

```
I am the perfect one
I am the perfect one
I am the perfect one
```
