

Your Song

Crossfaith

(Can you feel me, I'm crawling in the shade)
Your song is gone forever

You slowly fade away
I've been freezing out and tearing down
My sadness filled with stain
Now I need to know even it's bitter end
So tell me through my head
Cause this became a mystery
How will it be the end?
Can we find forever or lose the history?
Can't you see me drown
Can't you see it drags me out

Can you feel me? Will you find me?
Just say my name
I'm crawling in the shade
(Your song is gone forever)
Can you free me, will you bind me
Just say my name
Am I drawing in the wave?
(Your song is gone forever)

Your song is gone forever
Your song is gone forever

I feel like I am lost inside
Don't you say goodbye and deny
How will it be the end
I remember you as a better friend
Can not be the morning sun
Can not be the shade of you
My heart can it be the part of you

Sun will melt our memory
Left me with this misery
Fade away everything of you
Call my name, scream my name
The time is up

The time is up

Your everything just fade away
(And my heart stayed the same)
So tell me how the future plays
(Can you feel same as me)
Can you feel me? Will you find me
Just say my name
I'm crawling the shade
Your song was in my head

Can you feel me? Will you find me
Just say my name
I'm crawling the shade
Your song is gone forever

Can you free me, will you bind me

Just say my name
Am I drawing in the wave?
Your song is gone forever
