Heaven That I'm Making

Crowded House

Plead with my saint Wash his hands and feet Find his complaints Make this world complete

And this heaven that IOm making CanOt come quickly enough And the big wave that IOm taking It feels like IOm just waking up

Find out, don□t think
I can□t get used to it
Right on the brink
I end up losing it

And this heaven that IDm making It canDt come quickly enough And the big wave that IDm taking It feels like IDm just waking up

And IOll be there With all of creation ?
And each conversation I hear
As IOm walking in through the crowd
As if I can float through the air

And this heaven

Well, this heaven that IOm making It canOt come quickly enough And the big wave that IOm taking Feels like IOm just waking up

If there is hell on Earth There must be heaven, too Both in one place And not a second to lose
