

# Love Isn't Hard At All

Crowded House

Let's go  
The world awaits  
Or save it for a rainy day above you

We can try  
All kinds of ways  
To send me to an early grave below you

It wouldn't hurt to hear you say  
Although it's just a turn of phrase  
"I love you"

And in the dark  
I hear the call  
It feels like love isn't hard at all  
The sun comes up and I see you lost in thought

Those eyes are miles away  
They'll take your mind on holiday  
Where are you?

I'll help you  
Remember

A man works hard  
To find his shape  
Knowing where he stands  
And how much of this he can take  
The song the siren's make  
Getting loud as the swell's about to break

And will I float when the life boat goes under?

Just like the ocean floor  
You're relatively unexplored  
Who are you?

And from the deep  
I hear the call  
It feels like love isn't hard at all  
My head comes up and I'm ready  
Fear no more
