

## Playing With Fire

Crowded House

The chairman's looking out for me  
And fortune used to favor me  
Lately I've been lying frozen in my bed  
Feeling like the end isn't far away

Now some might say  
We're losing ground  
I've never seen such a thing  
Never seen such a thing  
To thank your enemy  
My wife is wild in quarantine  
The chairman's got it in for me  
And my brain is getting closer to the edge  
But I can't explain that trip to her

Now some might say  
We're winding down  
I've never seen such a thing  
Never seen such a thing

We're playing with fire  
And we're playing with fire  
And we're playing with fire

And this time, let's all be quiet  
The next generation's talking  
We're behind the wheel  
We're driving straight to the wall

Pretend it's alright  
We'll make it in time  
Be equal to the fight  
Be someone saving lives

When my legs and my arms let go  
That's when my hands and my heart say no

We're playing with fire  
And this time

And some may say  
We'll turn it round  
If you believe such a thing  
I'll believe such a thing
