

The Howl

Crowded House

With a sword in her hand
She was so damn mad
Cut circles in the sand
Oh the drama that it had

Old guard to upend
Sisters to defend
I won't try to pretend
Cos you know we get along
Always laughing like we're kids

Underwater I'm the land
And I don't want to be alone
But I could never love again
No surprise it's a groundhog day
Learn your lines, they're the same tonight

First you bark then you leave
Well I can't see the forest from the trees
Give me time to be calm
But beware when I'm baring my teeth
We howl in the air aaaoooooo

I've held my breath so far
I shake my body up
And I will howl
