

# Better Than Sunshine

Crowder

I've been trying to find a better way that I can explain it  
I met somebody and they love me and it's blowing my mind  
'Cause they know all the places that I've been  
But they stay with me knowing who I am  
You'll understand it once you feel it, why it's hard to define

'Cause it's better than sunshine  
In a summertime blue sky  
The best day of your whole life  
Is being born for the second time  
It's a freedom  
It's a healing  
Sweeter than you'll ever find  
And it's better than sunshine  
It's better than sunshine

You got that doubt in your eyes, it's kinda easy to see it  
Had you a couple rough years where nothing went right  
So I know, yeah, I know what you're thinking  
Ain't a person on earth that could change it  
But this ain't something from earth, this is something divine

And it's better than sunshine  
In a summertime blue sky  
The best day of your whole life  
Is being born for the second time  
It's a freedom  
It's a healing  
Sweeter than you'll ever find  
And it's better than sunshine  
It's better than sunshine

My Savior is better  
My Jesus is better  
His love is forever  
It's forever  
My Savior is better  
My Jesus is better  
His love is forever  
It's forever

It's better than sunshine  
In a summertime blue sky  
The best day of your whole life  
Is being born for the second time  
It's a freedom  
It's a healing  
Sweeter than you'll ever find  
And it's better than sunshine  
It's better than sunshine

My Savior is better  
My Jesus is better  
His love is forever  
It's forever  
My Savior is better  
My Jesus is better

His love is forever  
It's forever
