

Golgotha Hill (King Of Love)

Crowder

It's a long road up Golgotha Hill
It's a long road up Golgotha Hill
It's a long road, all terror and tears
But there ain't no stopping love

On a rugged cross, Jesus bled
On a rugged cross, Jesus bled
The sky went dark and the moon turned red
But there ain't no stopping love

He said
(King of Love)
You can spit on me
(King of Love)
Put your crown on me
(King of Love)
Put your whip on me
(King of Love)
I'm paying at all on Calvary

And the Son went down
And the Son went down
On the killing floor
The Son went down
The Son went down
The Son went down
On the killing floor

But you can't stop love
You can't stop love
You can't stop love

Sunday morning, stone rolled away
Sunday morning, stone rolled away
Sunday morning, nothing in that grave
'Cause there ain't no stopping love
No there ain't no stopping love

And the devil went down
The devil went down
On the killing floor
The devil went down
The devil went down
The devil went down
On the killing floor

Yeah, the devil went down
The devil went down
On the killing floor
The curse was broken
Heaven was opened
The devil went down
Forevermore

But you can't stop love
You can't stop love
You can't stop love

You can't stop love
You can't stop love
You can't stop love

You can't stop love
You can't stop love
You can't stop love

No, you can't stop love
You can't stop love
You can't stop love
All of hell couldn't stop love

It's a long road up Golgotha Hill
It's a long road up Golgotha Hill
It's a long road, all terror and tears
But there ain't no stopping love
