

## La Luz

Crowder

This is a Holy Ghost party song  
Like when a prodigal come home  
Like somethin' been given that you couldn't earn  
Like being in Heaven when you shoulda burned

This is a party song  
Like when the prodigal come home  
Like when lost things get returned  
Like innocence, like freedom

Break the bread, pour the wine  
The Father's arms are open wide  
Break the bread, pour the wine  
Ain't nobody gonna sleep tonight, come on

Cups up, we remember  
Hands up, we surrender  
Cups up, we remember  
Hands up, everybody sing

La Luz, brighter than sunshine  
La Luz, we got the Light of the World in us

This is a Holy Ghost party song  
Like when a prodigal come home  
Like somethin' been given that you couldn't earn  
Like being in Heaven when you shoulda burned

This is a party song  
Like when the prodigal come home  
Like when lost things get returned  
Like innocence, like freedom

La Luz, brighter than sunshine  
La Luz, I'm burning like wildfire  
La Luz, breaking through the darkness  
La Luz, we got the Light of the World in us

Uh yeah, yeah, You kept me alive  
This a love I can't describe  
Imma dance for my God  
Bachata merengue?  
Shout to the fam k lo k mi gente  
Don't care what my friends say  
I don't wanna go if You don't lead me  
You're on the right side interceding  
I got what I needed  
God came down to bring freedom  
His love for us is undefeated

Break the bread, pour the wine  
The Father's arms are open wide  
Break the bread, pour the wine  
Ain't nobody gonna sleep tonight, come on

Cups up, we remember  
Hands up, we surrender

Cups up, we remember  
Hands up now, everybody sing

La Luz, brighter than sunshine  
La Luz, I'm burning like wildfire  
La Luz, breaking through the darkness  
La Luz, we got the Light of the World in us  
We got the Light of the World in us  
We got the Light of the World in us

Una parrandista pal gente  
Caliente  
Halgo diferente  
And the boys in the building  
Stamos presente  
Ahora manos pal cielo  
Como se sienten

Una parrandista pal gente  
Caliente  
Halgo diferente  
And the boys in the building  
(Breaking through the darkness)  
Stamos presente  
Ahora manos pal cielo  
Como se sienten  
(Oh, the Light of the World in us)

Una parrandista pal gente  
Caliente  
Halgo diferente  
(Oh, the Light of the World in us)  
And the boys in the building  
Stamos presente  
Ahora manos pal cielo  
Como se sienten

Una parrandista pal gente  
(Oh, the Light of the World in us)  
Caliente  
Halgo diferente  
(Oh, the Light of the World in us)  
And the boys in the building  
Stamos presente  
(We got the Light of the World in us)  
Ahora manos pal cielo  
Como se sienten

Que comience la fiesta y celebración  
Que mi Dios se deleite en esta Canción  
Father's arms open wide receiving me home  
(We got the Light of the World in us)  
Been gone a long time, was lost on my own  
Pero nunca paraste de orar  
To lo malo que yo ese botado en el mar  
Remember them long nights I was pleading to God  
Just to see another day and He kept me alive  
(We got the Light of the World in us)
