

Postlude

Crowder

Good night little children
Good night Mom & Dad
Good night Santa Claus in your big red hat

Good night Mrs. C
Good night little snowflakes
Good night all you elves with your 401Ks

Good night tiny tinsel
And Tannenbaum, too
Good night sugar plums and my leftover food

Good night Christmastime
Though this isn't the end
This is only where the story began

We're sleepy and stuffed
But the best part is coming
Like a dessert to a land of milk and honey

What once was in darkness
Has now come to light
So merry Christmas to all and to all a good night
