

Despised From Seed

Crown Magnetar

Reject of humanity
Sleeping in silence
Banished forever to an exiled dimension
What lies ahead will be the end of this
I've set the stones in motion
To return to my home
A carved out tomb of nothing but echoes
I am suffocating, with this I will dispose

Rejected by the realm of flesh
Cut out my tongue
Rejected by the realm of flesh

I was selected
To bear the weight of all this torture
Despised from seed all my hope floods down the fucking drain

Despised from fucking seed
Cease to exist

In dying tears I peer into infinity
Beckoning mutilation of all deities
Reflection blurred by the skies of impurity
I see myself a shadow of the night
Banished to obscurity

A region of skulls
Caged deep in the sins of my own
To bear the nails that tarnish my limbs
I have been freed and returned to my home

Broken heart spilling ache into a cursed black cloud of rain
Flooding scent into my death of betrayal and hate
The vibrance bleeds, everything is bleak
Pleading with the scent of anguished death I will sacrifice
Forced to live a life of dread plunged deep, I will embed

Bury my crown
Bury my crown
