

# Detestable Impurity

Crown Magnetar

Disgusting fucking  
Human beings  
Spreading terror upon our blackened earth

Filth covered animals, we show our truth

Filling our lives with hatred and disappointment

Withering and writhing, putrid abominations

The time of execution is near  
Bow down before the evil ruler of our universe

Rotten slaves producing sludge deserve nothing, nothing but death

Repent as you spread the disease of your meaningless lives

You mean nothing  
This barren world that we live in, eradicate us all

As our souls are molested by the eyes of tyranny  
My child, my worshiper  
I curse thee with a plague of suffering and mutilation for ten thousand years

We are the end of our species and have admitted our eternal extinction. We reminisce of our failed lives

Let them see you fall  
Let them see how truly pathetic you are

Black hearted, diseased mind  
No emotion exists  
Nothing is felt as your life drifts away

I peer into your being and transfer through you the entirety of my hatred  
Lies roll from the tongue  
As you serve a possessive lord, waste your time

Falling through the deception  
Despised by everyone  
I open my eyes to the sun and see nothing
