

Everything Bleeds

Crown Magnetar

Gaze upon this blistering hell-scape
Feed the eyes of the mother and father
Born to die, we're awakened for suffering
Executed mass, there cannot be another

Altars of kings in disguise
Lamentations that no one shall survive
Creating an empire of ignorance and chains
Reach out for nothing as your whole world is in flames
Born to die

Gaze upon this blistering hell-scape
Feed the eyes of the mother and father
Born to die, we're awakened for suffering
Executed mass, there cannot be another

Planets align, the hate for Christ intensifies
Incessant pain as your life is carbonized
Our realm ablaze death generation in bloom
Ordered to rot in this prismatic flesh tomb
Infected mouths of this ground dispel dishonor
Nourished in sin from the body of the father

Angel of depravity
Pull the blade in deeper, my destiny

Carried away to the garden of sin
The nails caress my flesh as tears of blood fall
The evolution of night within my grasp
The hex of hate in dying breath I call
The dying breath I call
