

Immortalize

Crown the Empire

Immortalize
Immortalize

Time is a crutch
You can run, you can stay, you can hide
But you can't wake up
When you're dust
Don't deny what it takes
To survive when you can't save us

I feel the world spin underneath
Slow down the clock, I need to breathe
You're here then gone, what's to believe?
So now we're holding on to what is left
So now we're holding on to what is left
What have we done?

Take my hand and immortalize
Keep my soul alive, save me
Time will tell
If there's more to life in the afterlife
Awaiting me

Immortalize

Life is a game
Roll the dice just to pay
For the price of your temptation
Ain't it fun?
Counting down all the days
Till your soul's knocking at fate's door

I feel the moment slip away
Too scared to die, too numb to think
We scream but no one hears a thing

Take my hand and immortalize
Keep my soul alive, save me
Time will tell
If there's more to life in the afterlife
Awaiting me

No escape from this fate
If we're born to die
What's the point of my misery?

Take my hand and immortalize
Keep my soul alive, save me

Immortalize
Immortalize
What have we done?

Take my hand and immortalize
Keep my soul alive, save me
Time will tell
If there's more to life in the afterlife

Awaiting me
Take my hand and immortalize
Keep my soul alive
Time will tell
If there's more to life in the afterlife
Awaiting me

Immortalize
