Shut Your Mouth

Crucified Barbara

You were gone so long last night
Where the hell have you been, what have you done
The smell of something raw and nasty
You silence tells me all I need to know

What can you say
It's all over town now
Baby, don't explain
Just make it go away

Lie, or shut your mouth
Lie, or shut your mouth
Turn back time, turn it upside down
Fake it 'til I don't remember, I'm beggin' you
Lie, or shut your mouth

I tried so hard but I wasted time
While you did a good job making a mess
Into the fire, innocence is gone
Betrayed for lust, watch us going down

What do you want me to say
It's all over town now
Baby, don't explain
You can't save this round

Lie, or shut your mouth
Lie, or shut your mouth
Turn back time, turn it upside down
Fake it 'til I don't remember, I'm beggin' you
Lie, or shut your mouth
