

Fall-N-Apart

Crucifix

My world is fall-n-apart
It's got me wondering why is this life so hard?
You can catch me in the club or in the bar like "Hey!"
Trying to dance the pain away

I done been through so much pain, went out there and bought me
a chain...
Went out there and made it rain but it still didn't mean one mo
thafucking thang
But the times I felt my best, I was high, I was drunk like "Yes
!"
I was gone in the zone all alone on the dance floor by my gotda
mn self
Only I can feel my pain, only I can make this change
Music feeds my soul, the drums they beat my brain
These streets they know my name, these streets they know my voi
ce
Gotta get my fam up out these streets, I have no other choice

I'ma lose myself in the pain tonight
I'ma dance it away until the morning light

My world is fall-n-apart
It's got me wondering why is this life so hard?
You can catch me in the club or in the bar like "Hey!"
Trying to dance the pain away
