

# Black Witch of Doom

Cruel Force

In the valley of Hades  
Where the mist darkens the day  
You can hear the call of the wild  
Where the witching hour never ends

The fiery pits awaits  
What once was forgotten  
The return of Lord Satan's  
Hellish reign

Darkness and evil awaits equinox  
Black witch of beauty soon will die

Torches burned the stake  
Smoke filled the air  
Screams from the vault  
Demons rape

Black witch of beauty  
Enchanted our land  
Bent before the altar  
Of lust

Darkness and evil awaits equinox  
Black witch of beauty soon will die

Oh beauty of doom  
Tonight we're obsessed with you  
Silently our hearts cry  
Before we're killing you
