

Yeh yeh  
Kill em with a base that's funky  
Put it with a feel and a bong on repeat that's funky  
Put it with a wave when the high's getting deep that's funky  
Eighty one deeds in my head want to read, that's funky

Do you remember the times we had  
And the summer was the very first time  
Remember the times we had  
And I didn't want to make some noise in the garden  
Remember the times we had  
And the summer was very first time  
Remember the times we had  
And I didn't want to make some noise in the garden

Freaky nigga, want to hit it  
Waiting in the junkyard  
Now we rollin deep gotta make it in the city  
It's kinda funky  
Had to get away when she's looking  
Girl I'm hard to find  
Looking at her face, and she gave me the peace sign

Oh now run the guitar that's funky  
We can go straight to the garden that's funky  
I was in a haste to put on it  
Making up shit so I might sound retarded
