Who could see who's checkin'? (Check, check, check)
When I tried to be yours, she said don't stress it
Ou, she's reckless (Woah)
Yes I did, to get you ('Kay, 'kay, 'kay)
When it comes to the war in the trenches
I'ma motherfuckin' legend
And I tried to beg you (Yeah, yeah)
I tried to help you (Yeah, yeah)
I tried to let you
She said, "No dey stress me" (Woah)
And my seat is special (It's special, it's special)
When it comes to the motherfuckin' sessions
I got no contestants (Yeah)
I tried to be here more, why won't you tell them? (More)
Now that you fallin' backwards
Watch you go back like woah, woah, woah (Yeah)
Tried to help (Need help), I tried to beg you
I tried to let you, woah

Started feeling like the only one
Come fade in this lonely sun
I can reckon maybe you controlled me, huh
Tell me that you love me, so I know what's wrong
Aye, aye, aye, aye, aye
Yes I did to get you
Back of the car with your legs up clutched
I didn't mean to be mean, but your manners are wrong
Shawty gon' switch, when she hit that switch
When she hit that speeder like I would
Make a great fall but you move too soon
So hit that switch now
Girl you know what you did wrong
Girl you know what you did wrong
Aye, aye, aye, aye, aye
