

And It Never Ends

Crumb

Less and less sense it makes for me to live longer in here
When it comes over me that smile you see will slowly disappear

This city is tense
And it makes me dance
And it makes me dance
And it makes me dance
And it never ends
And it never ends

We've been here so long I don't know where is the last place I'
ve been
Remember when we were young and didn't do anything

This city is tense
And it makes me dance
And it makes me dance
And it makes me dance
And it makes me dance
And it never ends
And it never ends
And it never ends
And it never ends
And it never ends
And it never ends
And it never ends
