

Bones

Crumb

Baby, I want you to know that you're really
Driving me crazy
And now a thousand tears are pouring
Down to my toes

Baby, you're just in my head and my daydreams
Nobody knows you, it can't be
Cause when I think of you I swear babe
I can feel your bones

Lately, you are the first one to find me
Drowning and drowning, I can't swim
Your waves are too big and I am
Falling asleep
