

## From Outside A Window Sill

Crumb

Door shut but we're looking in  
From outside a window sill  
Shadows moving through a mist  
They keep on just moving past the house

Home is what I want and what I need, need, I need, need

Buzzing when the air is hot  
The scent will just pass you by  
The humans and the critter sounds  
They're crawling and thrashing all around
