

Please take my hand  
I'm a lonely lonely lonely man  
I'll have this dance  
If you give me at least a chance  
If you give me at least a chance

Follow you home  
In the night I like to go and roam  
Grab you too close  
Let me be the one you need the most  
Come on take me take me to the throne

Deep in the night  
I awake to a sound  
Is it mice on the floor  
Or the pipes in the ground

I'll lock the door  
With no light I can't see anymore  
Palms facing forward  
But my head is swaying back and forth

All that want is to feel something nice  
This can be easy or this can be right

Deep in the night  
I awake to a sound  
Is it mice on the floor  
Or the pipes in the ground
