

## Side By Side

Crumb

I change my life for you  
I change my life for you  
I change myself  
Degrade my health  
For you, for you  
So you can keep on doing well

We made this thing a mess  
I drank away the stress  
It's a luxury all this, they'll say  
From what I have I'll just keep tryna run away

I wait around just for some to come  
Too late, too late, too late  
Building it up just to see it shatter you  
And you and you  
And you  
And you
