

Leaves
Watch them float
10 degrees
Passing boat
Take your time 'cause it's all over
You're a deadbeat doll loner
House car bed trophy
Someone there to hold if only

Smile is wide your face is stone
The test it came back said you're prone to
Chew yourself right to the bone
I guess you don't like to be alone

That's just the way it goes
That's just the way it goes
That's just the way it goes
