

Big Mouth

Crush 40

Little past midnight
Standing by the moonlight
Watching the world take a shot at me
Why'd you lie to me?
We're this crazy generation
Glue it, screw it down
Filthy separation
Try and knock me down

All my life (All my life)
Robbed me of a take to blow my mind
Who's to try (Who's to try)
Another inch closer, you're a real tough guy

Keep your big mouth shut
Go ahead, keep it up, if you want another
Then keep that big mouth running on
Keep your big mouth shut
Woah, woah, woah, woah
Shut it!
Woah, woah, woah, woah
If you know what's good for you
Keep your big mouth shut
Keep your big mouth shut

Standing toe to toe
Let me know when you wanna go
Hit you with the daylight
Face down, goodnight
Oh, lesson so well learned
I should have left you there and let you burn
Well, I'm a man on a mission
Try and knock me down

All my life (All my life)
Robbed me of a take to blow my mind
Who's to try (Who's to try)
Another inch closer, you're a real tough guy

Keep your big mouth shut
Go ahead, keep it up, if you want another
Then keep that big mouth running on
Keep your big mouth shut
Woah, woah, woah, woah
Shut it!
Woah, woah, woah, woah
If you know what's good for you
Keep your big mouth shut!

Do it once, do it twice
You're the fool in paradise
Run and hide
When that mouth keeps running on and on!

Keep your big mouth shut
Go ahead, keep it up, if you want another
Then keep that big mouth running on

Keep your big mouth shut
Woah, woah, woah, woah
Shut it!
Woah, woah, woah, woah
If you know what's good for you
Keep your big mouth shut!
Keep your big mouth shut!

Shut it!
