

Take a look inside your heart
What once seemed fair today
Tomorrow it may not
Just a walk or a journey
Don't stop reaching high
Don't let the time pass you by

So many ways that you can try to forget
So many ways you'll find you wake up to regret

Someday, one day we'll say live life I know
Hold on hold tight
Don't let go don't lose sight

Feeling like the road
Is winding you on every turn
But there are lessons to learn
Take a look inside your heart
What once seemed impossible
Today is not

So many ways that you can try to forget
So many ways you'll find you wake up to regret

Someday, one day we'll say live life I know
Hold on hold tight
Don't let go don't lose sight

Someday, one day we'll say live life I know
Hold on hold tight
Don't let go

I can't imagine, I can't imagine
Making it on your own
You've got inside, you've got it inside of you...
So let it out...!

Someday, one day we'll say live life I know
Hold on hold tight
Don't let go don't lose sight

Someday, one day we'll say live life I know
Hold on hold tight
Don't let go just live life

Live Life...
Don't let go...

Live Life...
Live Life...
