

## Through The Fire

Crush 40

Yeah! I'm slashing right through the fire  
Yeah! I'm slashing might through the fire  
Yeah! I'm slashing fighting for the power

Better fear me better run away  
Cause this battle's just begun  
Enchanted whisper in your evil ear  
Can you hear the words I've won, I've won, I've won

Yeah! I'm slashing right through the fire  
Yeah! I'm slashing might through the fire  
Yeah! I'm slashing fighting for the power  
Fight for the power

In my path you'll fear me either way  
So the truth won't set you free  
For the glory of this golden war  
As you bow your head to me, to me, to me

Yeah! I'm slashing right through the fire  
Yeah! I'm slashing might through the fire  
Yeah! I'm slashing fighting for the power

Better fear me better run away  
Cause this battle's just begun  
Enchanted whisper in your evil ear  
Can you hear the words I've won, I've won, I've won

Yeah! I'm slashing right through the fire  
Yeah! I'm slashing might through the fire  
Yeah! I'm slashing fighting for the power  
Fight for the power
