

Into the Glory Battle

Cryonic Temple

We are defending those in need, in this battlefield of hell
Together we'll fight the tyranny, that moved the land

Even though our kingdom can die, we will carry on
Even though our kingdom can die, we will carry on

Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms
Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms

Warriors unite, stand up and fight
Fires of hell, light up the sky
Brothers move on, into the night
We will not fear, steel meet steel

Even though our kingdom can die, we will carry on
Even though our kingdom can die, we will carry on

Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms
Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms

Beyond the horizon, is our land of the free
Memory fades away, will I ever see you again?

Fight! Die! Fight! Die!

Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms
Riding into the glory battle, free as the mighty wind
Riding into the glory battle, we are the brothers in arms
