

Loneliest Man in Space

Cryonic Temple

At the end of life I find myself
Broken and alone
I tried so hard to find my way
Lost in silence

The stars will guide me to my final rest
Who will remember me?

Am I the loneliest man in space?
Drifting away for eternity
I am the loneliest man in space
Lost my love and family

Maybe I am the failure that
You said I would be
At least I tried to make it right
But I lost everything

The stars will guide me to my final rest
Who will remember me?

Am I the loneliest man in space?
Drifting away for eternity
I am the loneliest man in space
Lost my love and family

Am I the loneliest man in space?
Drifting away for eternity
I am the loneliest man in space
Lost my love and family

Am I the loneliest man in space?
Drifting away for eternity
I am the loneliest man in space
