

Mighty Eagle

Cryonic Temple

Acid rain that burns your skin, haunting hunger that craves within
Darkest clouds that cover your heart, time to break free from this all

Don't be afraid my friends, never give up
Spread your wings and take a leap of faith

You are as free as the mighty eagle, the flight is in the sky
You are as free as the mighty eagle, the sun's only world

Darkest time comes, you will see
Fighting demons, your soul they'll feed
Above the dark sky, they follow you
Never fear, you will beat them all

Don't be afraid my friends, never give up
Spread your wings and take a leap of faith

You are as free as the mighty eagle, the flight is in the sky
You are as free as the mighty eagle, the sun's only world

Don't be afraid my friends, never give up
Spread your wings and fly away, and fly away

You are as free as the mighty eagle, the flight is in the sky
You are as free as the mighty eagle, the sun's only world
You are as free as the mighty eagle, the flight is in the sky
You are as free as the mighty eagle, the sun's only world
