

Closer To The Truth (Take Me Home)

Cryoshell

Destiny is hard to meet
It'll hunt you down somewhere along the way
Don't you see, we're meant to be
The prodigies that came to show the way

'Cause I don't wanna rule the world alone
None of us can make it on our own
I'm screaming but I cannot hear a sound
The suffocation slowly comes around

Loneliness eating me inside
It's burning me alive, I'm travelling in my mind
And flying through a thousand lonely souls that cry
In swamps of evil lies
We're closer to the truth, now
Take me home

Don't believe it's dark to see
When the sun has left you, at the end of day
Suddenly it's hard to breathe
Resting in the trenches, won't you say?

Loneliness eating me inside
It's burning me alive, I'm travelling in my mind
And flying through a thousand lonely souls that cry
In swamps of evil lies
We're closer to the truth, now
Take me home
Take me home
Take me home

('Cause I don't wanna rule the world alone)
(None of us can make it on our own) Take me home
(I'm screaming but I cannot hear a sound) Take me home
(The suffocation slowly comes around) Take me home
