

Face Me

Cryoshell

I always underestimate things I wanna be
Apologies will never be my game
Facing the reality, facing by myself
All in all, it's just another pain

Sympathy is never lasting, I hunger for revenge
Pretending everything will be
Pretending everything is going
On and on and on and on

Face me
Closer to reality, closer to the edge
Closer to reality, closer to myself
Closer to myself

Everybody's gaining something, I'm everybody's friend
None of us will ever be the same
I try to run away, but dreams are catching me
Haunting me, forcing me to go
On and on and on and on

Face me
Closer to reality, closer to the edge
Closer to reality, closer to myself
Closer to myself

Face me
Closer to reality, closer to the edge
Closer to reality, closer to myself
Closer to myself

Face me
Closer to reality, closer to the edge
Closer to reality, closer to myself
Closer to myself
