

Shadow Within

Crypta

Beneath the social mask we wear
There's a veiled shadow inside
The wounds we try to ignore
Weaknesses hidden and denied

Dark side of nature buried within
A raging beast lies underneath

Face your demons - inner demons
Chaos, grief, anger and fear

Embrace the shadow within
Embrace the shadow within

Dark side of nature buried within
A raging beast lies underneath

Face your demons - inner demons
Ego, pain, envy and guilt

Embrace the shadow within
Embrace the shadow within

Voyage into the depths of your unknown
And the obscure realms of your soul
If you are to be whole
Accept your darkness to transcend your darkness

Face your demons - inner demons
Chaos, grief, anger and fear

Embrace the shadow within
Embrace the shadow within
