

Godless Deceiver

Cryptopsy

There she is, don't let her get away
She's the one, the fucking bruxa
She took the children
Do not believe her
She is a liar, let's fucking beat her
She took the children
Do not believe her
A filthy liar
Sorceress

Tie her hands, tie her hands
Let's get her, break her bones
This snide deceiver
Tie her hands, tie her hands
Let's get her, break her bones
The bitch deserves it

Tie her hands, tie her hands
Let's get her, break her bones
This snide deceiver
Hold her down, hold her down
Let's all take turns
Snapping all her fingers

Make her pay, make her suffer
Pound the flesh into blubber
Make her pay, make her suffer
Make her pay, make her suffer
Pound the flesh, we stand together
Against this fucking bitch

Bones break easily under such pressure
Arms don't usually bend that way
Look what we have done to her femur
Isn't that interesting?

Scratch, kick, smash
Beat her
Punch, stab, slap
Kill her

Yes
Scratch her, kick her
Slap her, beat her
Punch her, smash her
Kill her
The snapping sounds are such a playful melody
A delightful treat we have been given

Tie her hands, tie her hands
Let's get her, break her bones
This snide deceiver
Hold her down, hold her down
How were we supposed to know?
That we were all wrong
