

Call Of The Wild

Crystal Ball

I never toe'd the line
You teasing all the time
I did what I thought right
You can't take it

I had to go
I had to grow
I never could say why
But I could hear
So loud and clear
I had to comply

We won't let them stop us now
That's not our style
We were born to hear the call
Call of the wild

I finally found my way
You have nothing more to say
I am following my dreams
You can't take it

I had to go
I had to grow
I never could say why
But I could hear
So loud and clear
I had to comply

We won't let them stop us now
That's not our style
We were born to hear the call
Call of the wild
We won't let them push us 'round
We are not a child
We were born to hear the call
Call of the wild
