

Crazy in the Night

Crystal Ball

Don't you know the dream is over
Can't you see I'm through with you
Now you've made me run for cover
Haunted by the things you do

Followed, hunting me down
Feel the spell of your voodoo
Never a moment, here on my own
Just the presence of you

Crazy in the night
And I'm trying to put it right
All that you believe in
It really has no meaning
Crazy in the night
And I'm hoping that you might
Learn to let me go
Because you'll never in this fight

Changed my number still you call me
Hacked in to my web space too
This is not the way it should be
Why can't I be rid of you

Followed, hunting me down
Feel the spell of your voodoo
Never a moment, here on my own
Just the presence of you

Crazy in the night
And I'm trying to put it right
All that you believe in
It really has no meaning
Crazy in the night
And I'm hoping that you might
Learn to let me go
Because you'll never in this fight

Crazy in the night
And I'm trying to put it right
All that you believe in
It really has no meaning
Crazy in the night
And I'm hoping that you might
Learn to let me go
Because you'll never in this fight

Crazy in the night
And I'm trying to put it right
All that you believe in
It really has no meaning
Crazy in the night
And I'm hoping that you might
Learn to let me go
Because you'll never in this fight

Crazy in the night

And I'm trying to put it right
