

## Curtain Call

Crystal Ball

I went to bed with angels  
And woke up with their demons  
Reigning over my poor soul, my reality

So I sent back these angels  
Way back to frozen dark grounds  
Nightmares being banned from here

I rise and I demand my curtain call  
It's my curtain call

Some days I rock the angels  
I see the devil rising  
Saving my mentality, my insanity

Sometimes the demons haunt me  
Cracks that disturb my life line  
Conquer me and break me down

I rise and I demand my curtain call  
It's my curtain call  
I get up to claim my curtain call  
That's my curtain call
