Curtain Call

Crystal Ball

I went to bed with angels And woke up with their demons Reigning over my poor soul, my reality

So I sent back these angels Way back to frozen dark grounds Nightmares being banned from here

I rise and I demand my curtain call It's my curtain call

Some days I rock the angels I see the devil rising Saving my mentality, my insanity

Sometimes the demons haunt me Cracks that disturb my life line Conquer me and break me down

I rise and I demand my curtain call It's my curtain call I get up to claim my curtain call That's my curtain call
