

Memory Run

Crystal Ball

Friends, they come and go
Leaving their legacy
Here we pay them a tribute
With this true and plain elegy

Just like the dawn sun rises
They have enriched our lives
And like this song surmises
Their souls survive

United here we stand
With memories that never end
We ride into the setting sun
And honour them with this memory run

When the end's coming closer
Friends will always remain
Now that their time is over
Rest in peace till we meet again

Just like the dawn sun rises
They have enriched our lives
And like this song surmises
Their souls survive

United here we stand
With memories that never end
We ride into the setting sun
And honour them with this memory run

United...
