

## No Limits

### Crystal Ball

In the dead of night your thoughts are running wild  
Where will you go from here to fight the threat of time  
The darkness crawling deep into your mind  
Now you feel concerned by what you'll maybe find

Don't you rush to get a fraction  
Just slow down and take it all

No limits  
When you look up to the sky  
No limits  
Don't let life pass you by  
Wake up and take a look around you  
Who's free from sin  
No limits  
Gotta fly so high to win

In the light of day chance is on your side  
Like a wheel in motion face the rage of time  
New worlds to conquer  
The road is open wide  
You're looking forward to what you're gonna find

Don't you rush to get a fraction  
Just slow down and take it all

No limits  
When you look up to the sky  
No limits  
Don't let life pass you by  
Wake up and take a look around you  
Who's free from sin  
No limits  
Gotta fly so high to win
